

Bottle Monkey

Stop the glugging

Simply screw the gadget into the neck of the bottle - and hey presto - you can pour a drink one-handed even from a full 2-litre plastic bottle both easily and effortlessly. The handle not only turns the bottle into a jug, it also lets air in as you pour. Once the Bottle Monkey is fitted, the bottle's own cap can be used to seal the spout to store your drink.

Available in a choice of four bright colours, the Bottle Monkey looks fabulous when you're setting a party table with a selection of soft drinks.
